ABOUT ME

I'm a **multilingual** tech enthusiast with expertise in developing and leading **web and mobile applications** from ideation to launch.
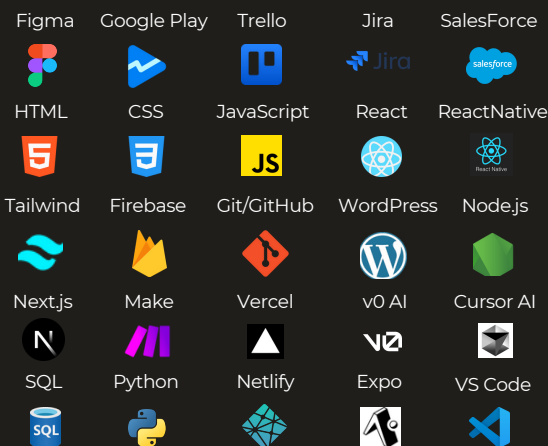

With a **Master's in Web and Mobile Development** and currently completing a **Product Management certification**, I've managed products from MVP design to deployment.

My background in **talent management** has enhanced my ability to understand **business needs** and improve collaboration.

Fluent in **French**, **English**, and **Spanish**, I've worked across Switzerland, Belgium, France, and Spain, strengthening my communication and leadership skills.

Passionate about IT and **AI**, I'm eager to continue advancing in both **development** and **product** management roles.
