TECHNICAL SKILLS

Software, AI & Data

Python, FastAPI, LangChain, LangGraph, LangSmith, Pinecone, Redis, SQL, RAG, MCP, HuggingFace, OpenAI & Gemini Multi-Modal (Image, Audio (STT- TTS), APIs, SlowAPI, Authentication, PySpark, n8n, Docker, Git, CI/CD, React, Amazon Bedrock, Vercel, Render.

Product & Engineering

Product discovery, roadmap planning, backlog prioritization, AI security, rate limiting, monitoring, cost optimization, A/B testing.

CERTIFICATIONS

- Associate AI Engineer - DataCamp
- Software Development - Udemy
- Data Engineering - Udemy
- PM & Scrum - Udemy

LANGUAGES

- Spanish - Native - C2
- French - Native - C2

Education

Master's in Web & Mobile Development European University of Madrid, Spain	2023 - 2024
Bachelor's in Statistics & HR Management IRG - Campus du CERIA of Brussels, Belgium	2018 - 2021
Bachelor's in computer engineering Free University of Brussels, Belgium	2016 - 2018
High School diploma in Economics Institut des Filles de Marie in Brussels, Belgium	2012 - 2015

Professional Experience

AI Engineer March 2024 - Present

Micropole. Swiss company specialized in SW & Data Solutions, Barcelona

- **Designed, built and deployed AI-powered web and mobile applications** using LLMs, RAG and vector databases.
- **Developed AI chatbots using LangGraph and RAG**, implementing Redis caching and rate limiting to reduce LLM calls, optimize latency and token consumption, and evaluate applications with LangSmith.
- **Built multimodal AI agents using OpenAI and Gemini**, leveraging tool calling to integrate external APIs and automate workflows.
- **Designed and built ETL/ELT data pipelines** across cloud and on-premises environments for AI and analytics solutions.
- **Designed, implemented and deployed end-to-end applications**, including frontend, backend, APIs and databases.
- **Built and maintained mobile applications**, managing iOS and Android deployments through App Store Connect and Google Play Console.
- **Built AI-powered automation solutions** that streamlined business processes and improved operational efficiency.

Software & Product Engineer Dec 2021 - Feb 2024

Extia & Hays. French-UK IT Companies, Barcelona - Paris - Madrid

- **Designed, Developed, tested, and deployed production-ready web and mobile applications** from concept to release.
- **Built frontend applications, backend APIs, and integrated third-party services**, including authentication, databases, payments, and mobile subscription workflows.
- **Managed the complete mobile application lifecycle**, including testing, CI/CD, and App Store and Google Play releases.
- **Collaborated with cross-functional engineering teams** to translate product requirements into scalable technical solutions.
- **Supported the recruitment team** by sourcing and assessing software engineering talent through technical interviews.

IT Recruiter Nov 2016 - Oct 2020

Actiris. Regional employment organization, Brussels

- **Recruited software engineers**, System Engineers, Data Engineers.
- **Screened, interviewed, and matched candidates** with client requirements.
- **Coordinated with hiring managers** throughout the recruitment lifecycle.
