TECHNICAL SKILLS

Software, AI & Data

LangChain, LangGraph, Pinecone, ChromaDB, HuggingFace, SQL, RAG, LLM integration, LLMops, OpenAI & Gemini APIs, Databricks, PySpark, ETL-ELT, n8n, Make, APIs, Jira, Figma, Git, React, React Native, Node.js, Python.

Product & Delivery

Product discovery, roadmap planning, backlog prioritization, user stories, stakeholder management, engineering collaboration, A/B testing.

CERTIFICATIONS

Associate AI Engineer - DataCamp
Software Development - Udemy
Data Engineering - Udemy
Scrum & PM - Udemy

LANGUAGES

Spanish - Native - C2
French - Native - C2
English - Advanced - C1
Dutch - Intermediate - B2
German - Elementary - A2

Education

Master's in Web & Mobile Development European University of Madrid, Spain	2023 - 2024
Bachelor's in HR Management & Statistics IRG - Campus du CERIA of Brussels, Belgium	2018 - 2021
Bachelor's in computer engineering Free University of Brussels, Belgium	2016 - 2018
High School diploma in Economics Institut des Filles de Marie in Brussels, Belgium	2012 - 2015

Professional Experience

AI Engineer - Product Builder March 2024 - Present

Micropole. Swiss company specialized in SW & Data Solutions, Barcelona

- **Designed and built AI-powered web and mobile applications**, leveraging LLMs and AI tools to accelerate prototyping and deliver production-ready solutions.
- **Developed AI chatbots integrated with vector databases**, including TTS and STT, document ingestion, tokenization, chunking, and embeddings, while designing AI architectures tailored to each use case, avoiding unnecessary complexity.
- **Built AI agents using OpenAI and Gemini language and vision models**, leveraging function calling to orchestrate external APIs, automate workflows, and perform image analysis within SaaS and mobile applications.
- **Designed and implemented end-to-end applications**, including frontend, backend, API integrations, deployment, and monitoring.
- Built and maintained mobile applications, managing iOS and Android deployments through App Store Connect and Google Play Console.
- **Built AI-powered automation solutions** that streamlined business processes, reduced repetitive tasks, and improved operational efficiency.

Product & Engineering Associate Dec 2021 - Feb 2024

Extia & Hays. French-UK IT Companies, Barcelona - Paris - Madrid

- **Apple product (Siri): built and scaled a QA engineering team** on-site at Apple Madrid to enhance product accuracy and quality.
- **Acted as software engineering reference**, building cross-functional teams for software & hardware solutions (Automotive & Web).
- **Translated product needs** into team structures for rapid delivery.
- **Manage engineering vacancies** such as Software, Data Engineers, PM-PO, Embedded, DevOps, Infrastructure & HW & SW QA.
- **Participate in client and team meetings** to assess needs & reports.
- **Onboarding and Training management** of the Engineers

HR Consultant Nov 2016 - Oct 2020

Actiris. Regional employment organization, Brussels

- **Screened & interviewed candidates** aligned with project needs
- **Managed onboarding & training** to improve adoption
- **Managed CRM** & coordinated with partners & clients
- **Advised jobseekers and referred them** to relevant services
